FOR IMMEDIATE RELEASE

**CHRISTOPHER T. BART, D.M.D. OFFERS NEW NON-SURGICAL
TREATMENT OF GUM DISEASE TO BETTER SERVE DENTAL PATIENTS**

Warren, Ohio. -- February 15, 2006 -- Dr. Christopher T. Bart, a dentist located at 5153 Mahoning Avenue, has added a new non-surgical treatment to help patients with certain forms of gum disease. Gum disease has been shown to increase your risk of heart attack and stroke, just as significantly as having high blood pressure, high cholesterol and smoking. The treatment consists of a special cleaning device that dispenses powerful bacteria fighting medication below the gumline while your dental cleaning is performed. The procedure is generally painless and can be completed in 2 to 4 visits depending on your condition.

Dr. Bart provides preventive dentistry, restorative dentistry, root canals, oral surgery, periodontics, caps, crowns, bridges, implants, full or partial dentures, bonding, teeth whitening, emergency dental care and welcomes children of all ages. Convenient office hours are available including early morning and evening hour appointments by calling 330-847-7333 or view his services at www.christopherbart.com. Dr. Bart can also be reached by email at doctor@christopherbart.com.

Christopher T. Bart D.M.D is a 1989 graduate of the University of Pittsburgh School of Dental Medicine where he received his Doctor of Dental Medicine. Prior to dental school, he attended Washington and Jefferson College and has completed two residencies after dental school. The first completed residency was in General Practice at Western Reserve Care System in Youngstown and the second in an Anesthesia Program at MetroHealth Medical Center in Cleveland. Dr. Bart is on the active staff at Forum Health and the Teaching Staff for the dental residency program at Northside Hospital.

Dr. Bart resides in Warren, OH with his wife and two children.
